

Ahmed Mohamed Eldegla

Junior .NET Backend Developer

AI Mansoura, Dakahlia, Egypt | Ahmeddagla99@gmail.com | +20 103 028 6913 | LinkedIn

PROFESSIONAL SUMMARY

Junior .NET Backend Developer with hands-on training in backend development using C#, .NET, Entity Framework, LINQ, SQL fundamentals, RESTful API concepts, and Git/GitHub. Strong previous background in C++ game and systems development, real-time networking, debugging, memory analysis, and performance optimization. Able to combine low-level problem-solving experience with modern backend development practices to build clean, maintainable, and reliable applications.

TECHNICAL SKILLS

Backend Development	C#, .NET, Entity Framework, LINQ, RESTful API Concepts, SQL Fundamentals
Programming & CS	C++, OOP, Data Structures & Algorithms, Multithreading, Clean Code
Systems & Networking	Real-time Networking, Packet Filtering, Debugging, Memory Analysis, Performance Optimization
Tools	Git, GitHub, Visual Studio, Runtime Debugging Tools
Soft Skills	Problem Solving, Communication, Organization, Project Management

BACKEND .NET TRAINING

Backend .NET Development Training	2026
- Studied backend development fundamentals using C#, .NET, LINQ, and Entity Framework. - Practiced working with data models, querying data, database interaction, and clean backend logic. - Gained familiarity with RESTful API concepts, layered application structure, and Git/GitHub workflow.	

WORK EXPERIENCE

C++ Networking & Game Security Developer Freelancer	2024 - 2025
- Designed and implemented high-performance C++ packet filtering systems for online games, handling real-time traffic inspection and manipulation. - Worked on performance-sensitive networking logic under real-time constraints, focusing on stability, debugging, and optimization.	
C++ Game Developer Freelancer	2017 - 2023
- Developed low-level C++ game modifications using advanced reverse engineering techniques, including static and dynamic analysis of game binaries. - Worked extensively with runtime debugging, memory analysis, and performance optimization in complex, real-time game environments.	

EDUCATION

Bachelor of Commerce (Business Administration)	2017 - 2021
Faculty of Commerce, Mansoura University	

COURSES

Digital Egypt Pioneers Initiative (DEPI) - Ministry of Communications and Information Technology	2025 - 2026
Mansoura, Dakahlia	
FreeCodeCamp - Learn C++ in 31 Hours	2017 - 2018
Udemy - Data Structures & Algorithms - C++	2018 - 2019
Udemy - Learn Multithreading with Modern C++	2022
Learn Git & GitHub	2026
